

11th GENERATION OF UP FAMNIT GRADUATES
Koper, 28 May 2021

UNDERGRADUATE STUDY PROGRAMMES
(66 graduates)

Mateo ANTONAC, *study programme Mathematics in Economics and Finance*

Aleksandar AVDALOVIĆ, *study programme Mathematics*

Dhyan Anaja BANIČ, *study programme Biodiversity*

Title of final project paper: *Prehajanje velikih sesalcev prek obstoječih prehodov na AC odseku Vrhnika–Postojna / The movement of large mammals over existing passages on the highway section Vrhnika–Postojna*
Mentor: Assoc. Prof. Boštjan Pokorny, PhD, Co-mentor: Prof. Elena Bužan, PhD

Iza Izabela BATTELINO, *study programme Biopsychology*

Špela BIZJAK, *study programme Biodiversity*

Title of final project paper: *Fenolne spojine v zavržkih predelave paradižnika, oljne ogrščice, oljke in sladke pomaranče / Phenolic compounds in by products of processing tomato, rapeseed, olive and sweet orange*
Mentor: Assist. Prof. Ana Miklavčič Višnjevec, PhD

Tamara BON, *study programme Biopsychology*

Benjamin BOŽIČ, *study programme Bioinformatics*

Title of final project paper: *Testiranje učinkovitosti bioinformacijskih orodij za združevanje zaporedij genomske DNA laškega smilja (*Helichrysum italicum* (Roth.) G. Don.), pridobljenih s tehnologijo Ion Torrent / Testing efficiency of bioinformatic tools for DNA sequencing of Curry plant's DNA (*Helichrysum italicum* (Roth.) G. Don.), produced with Ion Torrent technology*
Mentor: Assist. Prof. Matjaž Hladnik, PhD, Co-mentor: Assoc. Prof. Dunja Bandelj, PhD

Andraž CUDERMAN, *study programme Computer Science*

Title of final project paper: *Storitev porazdeljenega shranjevanja zasebnih datotek / Distributed storage service for saving private files*
Mentor: Prof. Cene Bavec, PhD

Špela ČUČKO, *study programme Bioinformatics*

Title of final project paper: *Rekonstrukcija evolucij mešanih tumorskih vzorcev z uporabo celoštevilskega linearnega programiranja / Reconstructing the evolution of mixed tumor samples using integer linear programming*

Mentor: Prof. Martin Milanič, PhD

Otilija DAJČ, *study programme Biopsychology*

Emma DRAGAN, *study programme Biopsychology*

Dijana DŽAMASTAGIĆ, *study programme Biopsychology*

Irhad ELEZOVIQ, *study programme Computer Science*

Title of final project paper: *Development of a multi-user web-based application: Dezertio survival game*

Mentor: Assist. Prof. Peter Rogelj, PhD

Anja FAJFAR, *study programme Biopsychology*

Jan GABER, *study programme Computer Science*

Title of final project paper: *Razvoj informacijskega sistema za evidentiranje pohodnikov / Development of an information system for recording hikers*

Mentor: Assist. Prof. Branko Kavšek, PhD

Lea GASPARI, *study programme Biopsychology*

Title of final project paper: *Razvoj govora od spočetja do zgodnjega otroštva / Speech and language development from conception to early childhood*

Mentor: Prof. Vlasta Novak Zabukovec, PhD, Co-mentor: Assist. dr. Vesna Jug, PhD

Arsen Matej GOLUBOVIKJ, *study programme Computer Science*

Title of final project paper: *Succinct priority queue with experimental evaluation / Jedrnata vrsta s prednostjo in eksperimentalno ovrednotenje*

Mentor: Prof. Andrej Brodnik, PhD, Co-mentor: Assist. Prof. Rok Požar, PhD

Gregor GRBEC, *study programme Bioinformatics*

Title of final project paper: *Razvoj metode LAMP za potrjevanje pristnosti živil iz lignjev vrste Loligo vulgaris (Lamarck, 1798) / Development of a LAMP method for authenticating foodstuff consisting of species Loligo vulgaris (Lamarck, 1798)*

Mentor: Assist. Prof. Matjaž Hladnik, PhD, Co-mentor: Assist. Prof. Andreja Ramšak, PhD

Mateja GRIŽON, *study programme Mathematics*

Title of final project paper: *Načrti in Hadamardove matrike Designs and Hadamard matrices / Designs and Hadamard matrices*

Mentor: Prof. István Kovács, PhD, Co-mentor: Assist. Prof. Nino Bašič, PhD

Tamara HORVAT, *study programme Biopsychology*

Aleksandar ILIEV, *study programme Mathematics in Economics and Finance*

Sara JELENIĆ, *study programme Biopsychology*

Vid JEROVŠEK, *study programme Computer Science*

Title of final project paper: *Sentimentalna analiza slovenskih tvitov s pomočjo strojnega učenja / Sentimental analysis slovenian tweets using machine learning*

Mentor: Assoc. Prof. Jernej Vičič, Co-mentor: Assist. Prof. Branko Kavšek, PhD

Erik JURMAN, *study programme Biodiversity*

Title of final project paper: *Sistem spolnega razmnoževanja pri Blagajevem volčinu (Daphne blagayana Freyer) / Sexual reproductive system in Blagay's daphne (Daphne blagayana Freyer)*

Mentor: Assist. Prof. Živa Fišer, PhD, Co-mentor: Assist. Manica Balant

Diana KAVČIČ, *study programme Biopsychology*

Blaž KEKEC, *study programme Biodiversity*

Title of final project paper: *Habitatne zahteve progastega goža (Elaphe quatuorlineata) v Sloveniji / Habitat requirements of the four-lined snake (Elaphe quatuorlineata) in Slovenia*

Mentor: Assist. Prof. Martina Lužnik, PhD, Co-mentor: dr. Anamarija Žagar

Aleš KLANDER, *study programme Biopsychology*

Title of final project paper: *Skupne značilnosti različnih oblik zasvojenosti in zasvojenih ljudi / Common characteristics of different forms of addiction and addicted*

Mentor: Prof. Ernest Ženko, PhD, Co-mentor: Prof. Gorazd Drevenšek, PhD

Anja KLEPAC, *study programme Biopsychology*

Đorđe KLISURA, *study programme Computer Science*

Title of final project paper: *Embedding non-planar graphs: Storage and Representation / Vložitev neravninskih grafov: Hramba in predstavitev*

Mentor: Assist. Prof. Matjaž Krnc, PhD, Co-mentor: Katja Berčič, PhD

Lara KOBAL, *study programme Biopsychology*

Sara KORPAR, *study programme Biopsychology*

Polona KOŽELJ, *study programme Biopsychology*

Title of final project paper: *Manj uveljavljeni konstruktivni in nekonstruktivni načini soočanja z anksioznostjo / Less established constructive and non-constructive ways of dealing with anxiety*

Mentor: Assist. Prof. Maja Smrdu, PhD

Emma LEBAN, *study programme Biopsychology*

Title of final project paper: *Okoljska zavest: povezava med splošnim prepričanjem o skrbi za okolje in ločevanju odpadkov / Environmental Consciousness: Relationship Between General Environmental Concern And Recycling Behavior*

Mentor: Assist. Prof. Ana Arzenšek, PhD

Nina LIPOVŠEK, *study programme Biopsychology*

Tena MANC, *study programme Mathematics in Economics and Finance*

Title of final project paper: *Assessing monetary policy rules in selected EMU members*

Mentor: Assist. Prof. Ana Grdović Gnip, PhD

Mina MARKOVIČ, *study programme Biopsychology*

Dorđe MITROVIĆ, *study programme Mathematics*

Eva MUR ERŽEN, *study programme Biodiversity*

Title of final project paper: *Populacija velikega pupka (Triturus carnifex) in hribskega urha (Bombina variegata) na obrobju Cerkniškega jezera / Population of Italian crested newt (Triturus carnifex) and yellow-bellied toad (Bombina variegata) at the edge of the lake Cerknica*

Mentor: Assist. Prof. Martina Lužnik, PhD

Vid NAGLIČ, *study programme Biodiversity*

Title of final project paper: *New insights into the diet of Plecotus macrobullaris using DNA metabarcoding technique*

Mentor: Assist. Prof. Jure Jugovic, PhD, Co-mentor: Assoc. Prof. Joxerra Aihartza, PhD

Zala PAPEŽ, *study programme Biodiversity*

Title of final project paper: *Potencialni konflikti in rešitve pri upravljanju s tujerodno nutrijo (Myocastor coypus) / Potential conflicts and solutions in coypu (Myocastor coypus) management*

Mentor: Prof. Elena Bužan, PhD, Co-mentor: Assoc. Prof. Boštjan Pokorny, PhD

Nel PEVEC KORŠIČ, *study programme Biopsychology*

Title of final project paper: *Zaznani vpliv prisotnosti psa v pisarni na doživljanje delovnega okolja zaposlenih / Recognized influence of the presence of a dog on the experience of working environment of employees*

Mentor: Assist. Prof. Ana Arzenšek, PhD

Alenka PIRIH, *study programme Biopsychology*

Ana Marija PLEMENTAŠ, *study programme Biopsychology*

Alen POHLEN, *study programme Mediterranean Agriculture*

Title of final project paper: *Potenciali gojenja zmajevega sadeža (Hylocereus spp.) v Sloveniji / Potentials of growing dragonfruit (Hylocereus spp.) in Slovenia*

Mentor: Assoc. Prof. Dunja Bandelj, PhD

Nejc PRINČIČ, *study programme Biodiversity*

Title of final project paper: *Navigacijski mehanizmi velikih morskih vretenčarjev / Navigational mechanisms of large marine vertebrates*

Mentor: Assoc. Prof. Bojan Lazar, PhD, Co-mentor: Assist. Matic Jančič

Marko RAZPET, *study programme Computer Science*

Title of final project paper: *Spletni informacijski sistem za nakup in prodajo kolesarske opreme / Web-based information system for the purpose of buying and selling cycling equipment*

Mentor: Assist. Prof. Iztok Savnik, PhD

Mirza REDŽIČ, *study programme Mathematics*

Urša RIJAVEC, *study programme Biopsychology*

Title of final project paper: *Ortoreksija nervoza pri ženskah, ki se rekreativno ukvarjajo z vadbo v fitnessu / Ortorexia nervosa in recreational active females in fitness*

Mentor: Assist. Prof. Maja Smrdu, PhD

Maja SELIČ, *study programme Biopsychology*

Atanas SHAJKAROV, *study programme Bioinformatics*

Title of final project paper: *Primerjava izbranih orodij za razvoj CRISPR-Cas9 vodilne RNA molekule za tarčno mutagenozo rastlin / Comparison of selected tools for the development of CRISPR-Cas9 guide RNA molecule for targeted mutagenesis in plants*

Mentor: Assist. Prof. Matjaž Hladnik, PhD

Maja SINKOVIČ, *study programme Biopsychology*

Jani James SLAWECHKY, *study programme Computer Science*

Title of final project paper: *Segmentation of Kana and Chinese characters from complex scenes /*

Mentor: Assist. Prof. Peter Rogelj, PhD, Co-mentor: Assist. Jordan Aiko Deja

Monika STEPANČIČ, *study programme Biopsychology*

Title of final project paper: *Prosocialno vedenje otrok in razlike med spoloma / Prosocial behavior of children depending on gender*

Mentor: Prof. Vlasta Novak Zabukovec, PhD

Sara STRAH, *study programme Biodiversity*

Title of final project paper: *Združba dvoživk v stoječih vodnih telesih na Kraškem robu / Community of amphibians in standing water bodies on the Karst edge*

Mentor: Assist. Prof. Martina Lužnik, PhD, Co-mentor: Assist. Felicita Urzi

Jure STRAJNŠAK, *study programme Biopsychology*

Title of final project paper: *Varovalni dejavniki, prehrana in življenjski slog s primerom remisije pri multipli sklerozi / Protective factors, diet and lifestyle with a case of multiple sclerosis remission*

Mentor: Prof. Gorazd Drevenšek, PhD

Žana ŠABAN, *study programme Biopsychology*

Taja ŠIRCA, *study programme Biopsychology*

Jakob ŠKRLJ, *study programme Computer Science*

Title of final project paper: *Samodejno povzemanje slovenskih besedil s strojnim učenjem / Automatic summarization of slovenian texts with machine learning*

Mentor: Assoc. Prof. Jernej Vičič, PhD, Co-mentor: Assist. Aleksandar Tošič

Kristina ŠPAREMBLEK, *study programme Biopsychology*

Nika TOMAŽIČ, *study programme Biodiversity*

Title of final project paper: *Sodobni pristopi pri proučevanju mikrobioma in izsledki raziskav na področju sredozemskih kulturnih rastlin / Contemporary Approaches to Microbiome Research and Findings Concerning Mediterranean Crops*

Mentor: Assist. Prof. Matjaž Hladnik, PhD

David VAC, *study programme Computer Science*

Title of final project paper: *Jezikovno modeliranje z rekurzivnimi nevronskimi mrežami / Language modeling with recurrent neural networks*

Mentor: Assoc. Prof. Jernej Vičič, PhD, Co-mentor: Assist. Prof. Branko Kavšek, PhD

Leila WINKLER, *study programme Biopsychology*

Anja ZUPANC, *study programme Biopsychology*

Zala ŽNIDARIČ, *study programme Biopsychology*

Nives ŽUNEC, *study programme Biopsychology*

Zala ŽUŽEK, *study programme Bioinformatics*

Title of final project paper: *Analiza mikrosatelitov v kloroplastnem genomu laškega smilja (Helichrysum italicum (Roth) G. Don) / Microsatellite analysis in the chloroplast genome of immortelle (Helichrysum italicum (Roth) G. Don)*

Mentor: Assist. Prof. Matjaž Hladnik, PhD, Co-mentor: Assoc. Prof. Dunja Bandelj, PhD

MASTER'S DEGREE GRADUATES
(34 graduates)

Urška BAČAR, *study programme Applied Psychology*

Title of the Master's thesis: *Vloga materine navezanosti, motivacije za dojenje in socialne opore pri uspešnem dojenju / The role of maternal attachment, breastfeeding motivation and social support in successful breastfeeding*

Mentor: Prof. Gorazd Drevenšek, PhD, Co-mentor: Assist. dr. Vesna Jug, PhD

Narmina BAGHIROVA, *study programme Mathematical Sciences*

Title of the Master's thesis: *Reconstructing perfect phylogenies via branchings in acyclic digraphs: a new lower bound and efficiently solvable cases*

Mentor: Prof. Martin Milanič, PhD

Maša BURDIAN, *study programme Applied Psychology*

Title of the Master's thesis: *Vzgojni stili in otrokova pripravljenost na vstop v šolo / Parenting styles and children's school readiness*

Mentor: Assoc. Prof. Sonja Čotar Konrad, PhD

Lucija ČESNIK, *study programme Nature Conservation*

Title of the Master's thesis: *Nabiranje hrane pri mravljah iz rodu Messor in ekološke značilnosti okolice njihovih mravljišč na območju jugozahodne Slovenije / Foraging activity of Messor ants and ecological characteristics of the ant nests surrounding in southwestern Slovenia*

Mentor: Assist. Prof. Jure Jugovic, PhD, Co-mentor: Gregor Bračko

Luigi FATIGATO, *study programme Mathematical Sciences*

Title of the Master's thesis: *Strongly regular Cayley graphs over $Zpn \oplus Zpn$*

Mentor: Prof. István Kovács, PhD

Urška GERIČ, *study programme Nature Conservation*

Title of the Master's thesis: *Genetska struktura evropske srne na stičišču med Dinaridi in Alpami / Genetic structure of European roe deer at the contact zone between the Dinaric mountains and the Alps*

Mentor: Prof. Elena Bužan, PhD, Co-mentor: Assoc. Prof. Boštjan Pokorny, PhD

Niki HROVATIN, *study programme Computer Science*

Title of the Master's thesis: *Neintruzivna identifikacija padcev s pomočjo pametnih tal / Non-intrusive fall recognition using smart floor*

Mentor: Assoc. Prof. Jernej Vičič, PhD, Co-mentor: Assist. Aleksandar Tošič

Ivana JOVIĆ, *study programme Mathematical Sciences*

Title of the Master's thesis: *Rotacijsko minimizirajoča ogrodja prostorskih krivulj / Rotation minimizing frames of spatial curves*

Mentor: Prof. Vito Vitrih, PhD

Danijel KABLAR, *study programme Nature Conservation*

Title of the Master's thesis: *The predation impact of the Mediterranean Shag (Phalacrocorax aristotelis desmarestii) on the population of Black Goby (Gobius niger)*

Mentor: Prof. Lovrenc Lipej, PhD

Nina KLOBAS, *study programme Mathematical Sciences*

Title of the Master's thesis: *Hitro prepoznavanje nekaterih parametričnih grafovskih družin / Fast recognition of some parametric graph families*

Mentor: Assist. Prof. Matjaž Krnc, PhD

Katja MIHALIČ, *study programme Nature Conservation*

Title of the Master's thesis: *Glukozinolati v stranskih proizvodih predelave oljne ogrščice (Brassica napus L. var. napus) / Glucosinolates in rapeseed (Brassica napus L. var. napus) by-products*

Mentor: Assist. Prof. Ana Miklavčič Višnjevec, PhD, Co-mentor: Kelly Peeters, PhD

Gašper MODERC, *study programme Computer Science*

Title of the Master's thesis: *Virtualna ekonomija v igrah in kriptovalute / Virtual economy in games and cryptocurrencies*

Mentor: Assoc. Prof. Jernej Vičič, PhD, Co-mentor: Assist. Aleksandar Tošič

Nensi PERUŠKO, *study programme Nature Conservation*

Title of the Master's thesis: *Modification of scots pine wood with steamed hardwood condensates and the investigation of its potential use in the marine environment*

Mentor: Prof. Andreja Kutnar, PhD, Co-mentor: Kelly Peeters, PhD

Nevena PIVAČ, *study programme Computer Science*

Title of the Master's thesis: *Graph search algorithms and structure of graph search trees*

Mentor: Assist. Prof. Matjaž Krnc, PhD

Luca PRIVILEGGIO, *study programme Nature Conservation*

Title of the Master's thesis: *Estimation of marine contamination based on toxic potential of water, sediment and biota*

Mentor: Assoc. Prof. Maja Fafandel, PhD, Co-mentor: Assoc. Prof. Bojan Lazar, PhD

Eva PUC, *study programme Applied Psychology*

Title of the Master's thesis: *Terapevtovi pogledi na svet – osebnostne lastnosti, naravnost, psihološka fleksibilnost in psihoterapevtski pristop / Therapist's World-Views – Personality Traits, Attitudes, Psychological Flexibility, and Psychotherapy Approach*

Mentor: Assoc. Prof. Gregor Žvelc, PhD

Tea PUCER, study programme Applied Psychology

Title of the Master's thesis: *Vpliv vrstniške skupine in čustvenih stanj na sprejemanje tveganih odločitev pri slovenskih mladostnikih / Influence of peer group and emotional state on making risky decisions in Slovenian adolescents*

Mentor: Prof. Vlasta Novak Zabukovec, PhD, Co-mentor: Assist. dr. Vesna Jug, PhD

Eva RACKI, study programme Nature Conservation

Title of the Master's thesis: *Waste in olive production in Slovenia*

Mentor: Prof. Andreja Kutnar, PhD, Co-mentor: Assoc. Prof. Matthew Schwarzkopf, PhD

Hana REMEŠOVÁ, study programme Sustainable Built Environments

Title of the Master's thesis: *Differences in consumer preferences for unweathered and weathered wood / Differences in consumer preferences for unweathered and weathered wood*

Mentor: Assist. Prof. Michael David Burnard, PhD, Co-mentor: Assist. Prof. Anna Sandak, PhD

Nastja ROM, study programme Nature Conservation

Title of the Master's thesis: *Vpliv prehranskih dodatkov na številčnost spor mikrosporidija Nosema sp. in dolgoživost kranjske čebele (Apis mellifera carnica) / Effect of dietary supplements on spore abundance of microsporidia Nosema sp. and longevity of the Carniolan honey bee (Apis mellifera carnica)*

Mentor: Assist. Prof. Janez Prešern, PhD, Co-mentor: Assist. Felicita Urzi

Anja RUDEŽ, study programme Applied Psychology

Title of the Master's thesis: *Anksiozne motnje v luči odnosov s starši in navezanosti v odraslosti / Anxiety Disorders in the Light of Parental Bonding and Attachment in Adulthood*

Mentor: Assoc. Prof. Gregor Žvelc, PhD, Co-mentor: Assist. dr. Vesna Jug, PhD,

Jakob SAJOVIC, study programme Applied Psychology

Title of the Master's thesis: *Z EEG zaznani možganski odzivi na kognitivno nalogo po zaužitju kofeina / Brain Responses to a Cognitive Task after Ingestion of Caffeine*

Mentor: Prof. Gorazd Drevenšek, PhD, Co-mentor: Assoc. Prof. Zoran Levnajič, PhD

Martin SENIČ, study programme Nature Conservation

Title of the Master's thesis: *Camera trap based data analysis of the Bare-faced Curassow (Crax fasciolata) life history patterns in the northern Pantanal, Brazil*

Mentor: Prof. Karl-Ludwig Schmuckmann, PhD, Co-mentor: Assist. Prof. Andrej Sovinc, PhD, Kathrin Burs

Gregor SOTLAR, study programme Computer Science

Title of the Master's thesis: *Oprijemljiv uporabniški vmesnik za informiranje turistov / Tangible user interface for informing tourists*

Mentor: Assist. Prof. Klen Čopič Pucihar, PhD, Co-mentor: Assoc. Prof. Matjaž Kljun, PhD

Tamara SOVIČ, study programme Nature Conservation

Title of the Master's thesis: *Effects of PMMA microplastic on cells and tissue of the Mediterranean mussel Mytilus galloprovincialis after an experimental exposure*

Mentor: Assoc. Prof. Dijana Pavičić Hamer, PhD, Co-mentors: Assist. Ines Kovačić, PhD, Assist. Prof. Vladimir Ivović, PhD

Tina SRAKA, study programme Applied Psychology

Title of the Master's thesis: *Osebnostne lastnosti, čustvena inteligentnost in zadovoljstvo s partnerskim odnosom / Personality traits, emotional intelligence and satisfaction in a partnership*

Mentor: Assist. Prof. Ana Arzenšek, PhD

Emma ŠPAN, *study programme Applied Psychology*

Title of the Master's thesis: *Povezava med rekreativno uporabo MDMA in kakovostjo partnerskih odnosov / Recreative use of MDMA and quality of romantic relationships*

Mentor: Assist. Prof. Ana Arzenšek, PhD, Co-mentor: Prof. Gorazd Drevenšek, PhD

Jana ŠUŠNJAR, *study programme Nature Conservation*

Title of the Master's thesis: *Dokaz in identifikacija bakterije Borrelia burgdorferi sensu lato v klopih obalno-kraške in primorsko-notranjske regije / Detection and identification of bacteria Borrelia burgdorferi sensu lato in ticks of obalno-kraška and primorsko-notranjska regions*

Mentor: Assist. Prof. Vladimir Ivović, PhD, Co-mentors: Assist. dr. Katja Kalan, PhD, Tjaša Cerar Kišek PhD

Maša TAMŠE, *study programme Applied Psychology*

Title of the Master's thesis: *Doživljanje procesa prekinitve zaposlitve in potrebe ob odhodu iz organizacije / Experiencing the process of job loss and needs while leaving the organization*

Mentor: Assist. Prof. Ana Arzenšek, PhD, Co-mentor: Assist. Urša Mars Bitenc, PhD

Anja UMIČEVIĆ, *study programme Applied Psychology*

Title of the Master's thesis: *Prekarno delo in duševno zdravje / Precarious employment and mental health*

Mentor: Assist. Prof. Ana Arzenšek, PhD

Dorian VODOPIA, *study programme Nature Conservation*

Title of the Master's thesis: *Embryotoxicity and oxidative stress in the sea urchin Paracentrotus lividus after co-exposure to PMMA microparticles and the drug indomethacin*

Mentor: Assoc. Prof. Dijana Pavičić Hamer, Co-mentors: Assoc. Prof. Bojan Lazar, PhD, Prof. Daniel Mark Lyons, PhD

Martina VRBANČIČ, *study programme Applied Psychology*

Title of the Master's thesis: *Povezanost pojava sindroma čebele matice z diskriminacijo na delovnem mestu / The relation between Queen Bee Syndrome and Workplace Discrimination*

Mentor: Assist. Prof. Ana Arzenšek, PhD

Maša ŽERJAV, *study programme Applied Psychology*

Title of the Master's thesis: *Predanost, samokontrola, razvojna naravnost in rezilientnost pri uspešnih slovenskih športnikih / Grit, self-control, growth mindset and resilience of successful Slovenian athletes*

Mentor: Assist. Prof. Kristijan Musek Lešnik, PhD

Vesna ŽORŽ, *study programme Applied Psychology*

Title of the Master's thesis: *Povezanost med empatijo, odprtostjo za izkušnje in predsodki do muslimanov / The Relation Between Empathy, Openness to Experience and Prejudice against Muslims*

Mentor: Assist. Prof. Ana Arzenšek, PhD
