6 Month digital developer Internship

MBVSD0402

PLEASE READ CAREFULLY BEFORE CONTINUING.
ESPA or European Student Placement Agency is a recruitment agency whose goal is to find high quality internships for European students in the UK. We work closely with our host companies to ensure the positions provide students with a great experience, both professional and personal.

REQUIREMENTS: ESPA vacancies are open to all EU passport holders able to travel to the UK for an educational work placement, without the need for visa documents. You have to still be a student or have graduated in the last 12 months. Any student who is unsure of their visa situation should check with their university before applying.

BENEFITS: ESPA is free for students. Accommodation, utility bills, TV Licence, Internet Access and UK commuter travel to the place of work will be paid for by the host company. This will be sourced and managed on your behalf by ESPA.

There is no salary over and above the benefits offered, unless specifically stated.

The Host Company

This new lab and incubator develops disruptive products and services. By its new approach this company gathers original ideas, unique viewpoints and overlooked opportunities rather than mining every niche in the market.

Role

A skilled software developer contributing to a high calibre start-up team. The company is creating a location aware platform for ramified interaction on mobile devices. The developer will feel most comfortable when working on challenging code problems, will enjoy playing with software and technology in general, and will be a self starter with initiative.

Duration

6 months

Location

Bath. A world-heritage city in the South West of England which hosts two great universities. With a truly international feel it has wonderful cultural experiences and is just 1.5 hour train journey from London and a 15 minute train journey from the vibrant city of Bristol.

Languages

Fluent in written and spoken English.

Start date

As soon as possible.

Tasks

- Participate in UX design & creation of clickable UI mockups
- Contribute to core development activities
- Carry out consistent unit testing, possibly involving automation
- Contribute energetically to the entire team

Personal Skills

Essential:

- Full stack developer
- Excellent javascript skills & experience with a popular javascript framework(s)
- Comfortable using GIT
- Familiar with agile and lean methodologies

Desirable:

- Experience with MEAN stack (Node.js & AngularJS)
- Experience with LAMP stack
- Comfortable with UX design, and skilled with CSS
- Mobile or games development experience

How to apply

STEP 1) Please, register with us at http://www.espauk.com/students/register-with-us
STEP 2) Please, send an email to madeline@espauk.com with the reference code MBVSD0402 attaching your CV as a pdf file. A cover letter is always helpful.
